

Revolutionizing Private Pay Pain Management

Introducing a New Concept in Self-Pay Medicine Class IV High Power-High Dose Laser Therapy

A New Non-Pharmacologic Option for Pain Management

INVITATION TO A CASH SELF-PAY SEMINAR

Results so good Patients pay cash for relief. Are you looking for a device to treat medical failures for conditions like burning neuropathy, spinal stenosis, severe degenerative arthritis, and disc herniations with leg pain, just to name a few, and deliver outcomes so good that patients will gladly pay out-of-pocket for, then read on. That is the Diowave difference. As the founders of Class IV laser therapy, we have over 17 years of experience including investing years to perfect our proprietary protocols, and 13 years in a private clinic practice.

We invite you to attend this seminar with its purpose to educate first time laser therapy buyers, as well intermediate and expert laser owners to navigate through the maze of laser therapy devices before making your next laser purchase. **Don't forget, by purchasing a new laser under the Section 179 IRS tax code you may be able to write off office medical equipment and maximize your tax deductions.**

The seminar agenda includes:

Morning Session, 8:30am-11:30am: Laser Therapy Expert Education

1. Learn how to outperform any knife, needle or pill. Free your patients from opioids
2. Learn about Stealth micro-pulsed laser treatment and learn why your laser may be not living up to your expectations
3. Learn that High Power Laser Therapy (HPLT) actually heals the pathology
4. Learn that HPLT is the most efficacious safest treatment available today for nerve pain
5. Learn that HPLT long-term maintenance relief for chronic degenerative conditions and how to create a recurring revenue stream

Afternoon Session, 1:30pm-4:30pm: Laser Therapy Expert Training

The afternoon session is a hands-on high power and stealth micro-pulsed technology training session for Diowave laser owners and those who are pre-approved for financing and have signed their finance documents.

We promise you will leave with the ability to treat any neuro-musculoskeletal pathology you are confronted with. We will teach you how to get these results. Learn in the morning and train in the afternoon.
